

# Some things are meant to be **together**

---

Like Liability Insurance & Health and Safety assessments

“Without the support of SafeCheck,  
I don't know how we would have  
met our requirements under H&S  
legislation and regulations.”

**Abergavenny Fine Foods Ltd**

# You just shouldn't have one **without the other...**

**Coffee and chocolate. Fish and chips. Salt and pepper. Strawberries and cream. Bread and butter. Liability Insurance and Health & Safety assessments.**

No two businesses are alike. No two sectors are exposed to the same internal and external health and safety risks.

For many businesses, the first time they find out if they are non-compliant with health and safety legislation is when it's too late. Following an accident, a claim or an enforcement visit.

At Irwell Insurance, we believe that prevention is always better than cure.

SafeCheck provides an insightful report that highlights the good and the bad. It explains business vulnerabilities and recommends improvements required to meet H&S compliance and duty of care obligations.

That's why we are proud to be **the only liability insurance provider to offer a health and safety review** as part of our service.

**SafeCheck makes good business sense.**  
**To us, to you and to your clients.**

# Not all clients have access to health and safety experts. **But we do.**

**SafeCheck** is a health and safety service that can be tailored to the unique circumstances of each business and sector. It provides guidance to businesses so they can mitigate potential losses through injury, ill-health, loss of production and liability claims.

## **Thorough and thought provoking**

A qualified consultant will visit your clients' premises or if they prefer, reviews can be carried out online, to assess the organisation's compliance with health and safety regulations.

By reviewing pertinent documentation, asking relevant questions, and discussing sector challenges and specific work activities, the SafeCheck consultant can identify gaps and business vulnerabilities – often things that get overlooked or maybe misunderstood.

## **Business and people focused**

Once vulnerabilities and areas for improvement are identified, your clients will be provided with a confidential, detailed report with pragmatic recommendations, handy tips, actions and advice to aid minimise legal and business risk. It will also highlight areas that they are doing well!

**SafeCheck** helps clients understand their health and safety obligations and duty of care responsibilities – to employees, customers and contractors.

It helps business promote industry best practice and maintain standards which are pivotal to their reputation and growth.

**SafeCheck makes good business sense.** Why would you choose liability insurance from a provider that doesn't offer this service? It's a win-win.

A man and a woman, both wearing white hard hats and high-visibility yellow and blue work jackets, are looking at a tablet. The man is on the left, wearing glasses and has a beard. The woman is on the right, pointing upwards with her right hand. They are in an industrial setting with blurred lights in the background.

*“Our knowledgeable and friendly team are here to help and let businesses know exactly where they stand regarding their H&S compliance; to confirm what they’re doing well - and where there are compliance gaps, how to close them.”*

**Stephen Galley**, SafeCheck Director

A woman wearing a white hard hat and a high-visibility yellow and grey vest is shown in profile, looking at a tablet computer. She is in a warehouse setting with stacks of cardboard boxes on pallets in the background. The lighting is warm and focused on her.

“SafeCheck has helped many businesses reduce their exposure to liability claims, fines and prosecutions.”

**Stephen Galley**, SafeCheck Director

# H&S Liability Insurance.

## A perfect match.

### **The benefits in brief**

Some things work better together and just make perfect sense. Following a thorough health and safety assessment, either on site or online, clients will:

- Understand the level of risk and gaps where their business may be vulnerable to losses through injury, ill-health, loss of work, liability claims or a visit from an enforcement officer
- Have their compliance areas independently confirmed
- Learn how to better protect their business, their employees, their contractors, the general public and themselves
- Know what their H&S legal duties are and how compliant they are with H&S requirements
- Understand what they are doing well and receive pragmatic advice about how to improve
